

Railway Preservation Society of Ireland

171 For 171 Diesel Railtour

Dublin Pearse - Cork - Dublin Pearse

Saturday 21st April 2012

As part of the fund raising campaign for the restoration of RPSI flagship locomotive No.171 "Slieve Gullion", a special diesel hauled railtour has been organised from Dublin to Cork and return.

The "171 For 171" railtour, 171 miles in each direction, will feature the RPSI Cravens set and requested 071 class motive power. There will be several photographic stops along the mainline to Cork and then a non-stop return journey back to Dublin.

There will be over 2½ hours of free time in Cork city, giving plenty of time to explore Cork City or to take a journey on the railways of east Cork to Midleton and Cobh.

There will be a full bar and snack car available throughout the day.

All money raised from this railtour will go directly to the restoration of locomotive No.171 "Slieve Gullion". This locomotive is one of our most useful locomotives, with widespread route availability and the ability to haul our heaviest trains, No.171 is vital to the continued operation of our steam operations.

Outline times are:

Outward: Dublin Pearse 09:45, Cork 13:20

Return: Cork 16:10, Dublin Pearse 19:00
