

RAILWAY PRESERVATION SOCIETY OF IRELAND

SPRING NEWS-SHEET 1978

- MERLIN TAKES OFF As Robin Morton announced at the Annual General Meeting, we have arranged for G.N.R. No.85 "Merlin" to be overhauled with a view to regular use on our railtours. Since '85' entered Harland and Wolff's engine works, it has been completely dismantled and the boiler tubes removed. Inspection is now almost complete and restoration and rebuilding will soon be under way. When this work is complete, we will assume responsibility for operation and maintenance of the locomotive. It will return to the Transport Museum when not required by the Society.
- DROP IN The big news from Whitehead is that the new wheeldrop is now almost complete. The concrete pit has been completed and the lifting gantry erected. A new door is to be installed in the rear wall of the locomotive shed and a short length of track laid to give access to the equipment. As mentioned before, the famous "back room" had to be demolished as part of this project, but its place has been taken by a wooden bungalow purchased from Bangor Shipyard. It was erected after the Christmas holidays and represents a standard of comfort previously unknown at Whitehead. With any luck, some of you will be enticed to come and perform a day's work and sample its luxury. Elsewhere, track is being laid into the new shed, the water column has been re-positioned and a three phase electricity supply is being installed in the stables. Enterprise Ulster have also completed their programme of work with erection of gates at the site entrances.
- GRATE NEWS The winter's locomotive maintenance programme has been somewhat limited, due to the need for our available manpower to work on the wheeldrop. In preparation for the coming season, No.4 is receiving repairs to its rocking grate. No.171 will become the first locomotive to use the wheeldrop when, in a few weeks' time, its axleboxes will be examined. The use of the wheeldrop will eliminate the need for many weeks of tedious jacking, which would otherwise have been required.
- ON THE CARDS The New Year brings your membership subscription (we hope!) and your membership subscription brings you a new membership card ... but not immediately. We can save a lot of money and effort by sending out membership cards with your tour circulars etc., so don't get upset if it takes a month or two to reach you. If you really want to receive it straight away, send a stamped addressed envelope to Laurence Morrison.
- DELHI VISION The Railway Tour of Northern India will depart as planned on 18th February. Of the thirty-five travellers, eight are RPSI members and we will be holding a reception in Delhi for members of the Indian Railways Board and officials of the Indian Railway Museum. We also hope that one of the museum exhibits will be in steam during our visit, possibly the Patiala State Monorail locomotive.
- LATE LEAFLETS Apologies to those of you who requested Membership Introduction leaflets. We had hoped to receive the new shipment over a month ago, but printing difficulties have prevented this. All requests will be dealt with as soon as possible. If you want some, send a large S.A.E. to William Coates.
- COMING COACHES Work continues on our coach fleet in preparation for the year ahead. It is hoped that ex-GNR K15 No.586 will be able to enter service, and also that the North Atlantic brake No.472 will return to duty. Our "Old Faithful" No.861 is due to receive some refurbishing work - mostly external.
