

THE RAILWAY PRESERVATION SOCIETY OF IRELAND

APRIL 1981 NEWS-SHEET

APRIL 11 TOUR POSTPONED: The proposed Dublin-Bray shuttle with 184 which was due to run on Saturday April 11 has been postponed. The reason is the electrification work which is taking place on the Dublin suburban system, particularly at weekends. However, it is hoped to run the trip in the Autumn using RPSI stock, the details to be confirmed. The Society apologises for the short notice in advising members of the postponement. We trust no inconvenience will have been caused.
